Joint material and spatial load fields

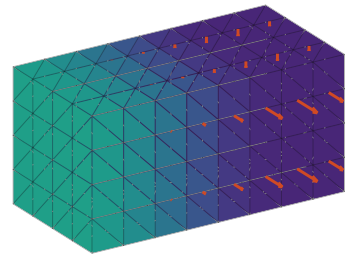

Case 000 · time4 · exact surface quadrature summed into patches · posterior mean forces

Reference

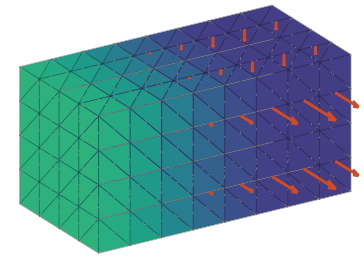

Block · total Fz = -21.2; Fy = 181.0 mN

Initial posterior

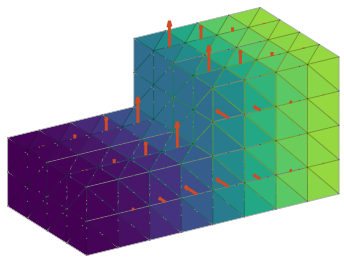

Block · total Fz = -21.2; Fy = 102.1 mN

Adaptive measurements

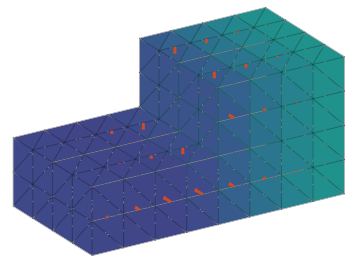

Block · total Fz = -36.3; Fy = 156.0 mN

Reference

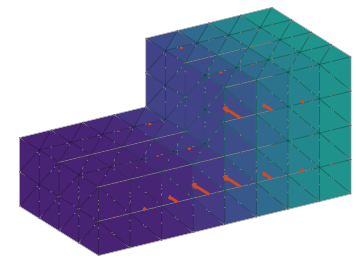

Step · total Fz = 79.6; Fy = -49.3 mN

Initial posterior

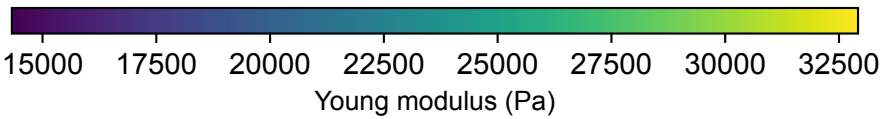

Step · total Fz = -19.5; Fy = -28.2 mN

Adaptive measurements

Step · total Fz = -5.1; Fy = -68.1 mN

Orange arrows: integrated force per patch (N); shared glyph scale 0.96 m/N (32 mm = 33.42 mN).
Rest geometry at true scale; signed applied loads, not unilateral contact. Arrow lengths are force symbols, not displacements.
